MARKET HAS SLIGHT RECOVERY

Bad Features Seem to Be Discounted—Market Due for a Rally—North Butte Strong on Good Buying and Prospects Seem Better.

(By I. N. Kinsey)

GLOBE, February 26.—Paine, Webber & Co. say of the copper share market: After first heavy liquidation at opening the market rallied all through the list. North Butte was by far the most active stock and buying would certainly seem to foretell some very good news to come out in the near future. Tamarack, which was weak yesterday, was in good demand today. Copper Range opened off a point, but rallied easily to \$98.50. For tomorrow we expect to see higher prices in North Butte, Tamarack, Quincy and Shannon. Same old buying was seen in Victoria again today and stock looks well.

Logan & Bryan: John Cudaby of Calumet, an authority of John D. Ryan, makes public denial today that neither Ryan nor his associates or the Amalgamated Copper company have any intention of acquiring any interest or control of Oseola or any Bigelow properties.

Dee says: North Butte acts as if there was something back of the present move and looks like going much higher.

Dow, Jones & Co. say of New York market: London market steady. Settlement began today and quotations are now for new account. Sharp declines in coppers in London today. Americans in London one-eighth to one-half below parity. Market rallied somewhat at the close and higher prices are looked for tomorrow. This is only natural after heavy liquidation of past few days.

Gates says Atchison received A1 support during the heavy liquidation of the market early in the day.

WHO IS THE MARSHAL?

Formerly Insane Official of Flagstaff Returns Cured and Wants Job

I. T. Wheeler, who was discharged from the insane asylum at Phoenix a few days ago, met with a strange reception upon his return to Flagstaff.

Wheeler was city marshal of Flagstaff, having been elected at the municipal election last spring by a large majority.

Shortly after that he was thrown from a horse and rendered insane. He was committed to the asylum at Phoenix and was an inmate of that institution for several months, but after a time he showed improvement and was recently discharged as completely cured.

Wheeler went back to Flagstaff thankful that the cloud had passed from his mind and presented himself to carry out the will of the people when they elected him as their police officer.

But Wheeler found that another man had been appointed in his place and the city council stood pat against allowing Wheeler to fill out the term which he had been elected to serve.

After arguing the matter Wheeler finally consulted a lawyer and had filed a suit against the city of Flagstaff for his salary as marshal of Flagstaff.

It is said that the people who elected Wheeler are behind him and are dissatisfied with the council's action in refusing him permission to fill the office. The outcome of the suit will be watched with interest.

BIG SALARY OF DR. RICKETTS

Bisbee Review Opines that Former Old Dominion General Manager Gets \$75,000 per Year from Greene-Cananea Company—Visits Bisbee.

Among the passengers on the incoming train last evening from the west was Dr. L. D. Ricketts, general manager of the great Greene-Cananea company, lately formed by John D. Ryan, Colonel W. C. Greene, Thomas F. Cole and associates, says the Bisbee Review. Having attended to some matters of private business last evening he will return to Cananea this morning.

Viewing the matter from the standpoint of actual operation of a mine, Dr. Ricketts is probably the foremost authority in the mining world today, and there is no doubt that is the reason for his being chosen to take absolute control of the vast enterprise which is the existence of the big Sonora mining center.

A little over a year ago it was rumored in mining circles that Dr. Ricketts, who was then general manager of the Old Dominion Copper company at Globe, would take the management of the Greene Consolidated Copper company at a salary of \$50,000 a year, the highest amount paid to a manager in the United States, and that means in the world. Months passed and it became evident from the fact that the doctor did not make a change that the immense salary was no inducement.

When Ryan, Greene and Cole formed the immense company a few weeks ago, it was officially announced that Dr. Ricketts would take control of the entire holdings. Speculation was rife as to the amount which the eminent authority on mining would receive in compensation, and the best founded reports placed the sum at \$75,000 a year, or half as much again as the salary of the president of the United States.

There is no doubt, however, that the immense salary was not the only attraction for Dr. Ricketts, because those who know him best say that the monetary consideration would not weigh near as much as the fact that the new enterprise would afford him an opportunity of indulging his ambition by making Cananea one of the greatest camps in the copper world.

When seen by a Review reporter last evening, Dr. Ricketts stated that he did not care to talk for publication because he had not had time enough to fully formulate his plans in Cananea.

PRESCOTT MAN'S VISIT TO GLOBE

Attorney Job Contrasts Conditions in Bisbee and Globe—Says Globe Is Flourishing and Thriving—Strongest Union Camp.

Thomas C. Job, a prominent Republican attorney of Prescott, is in the city today on his way home from Bisbee and Globe, where he has been for some time past on business connected with the Girard-Haggott-Campbell-Job Construction company of Prescott, says the Phoenix Democrat. The company recently secured a contract from the Warren Townsite company for the construction of a five-mile electric line between Bisbee and the town of Warren, which is now being built as a residence suburb of the big mining town. J. B. Girard of the company, who built the Prescott electric car line, will have charge of the work on the new line.

Mr. Job was in Bisbee the day that the eight hundred miners were laid off, and it is his opinion that the mines will never open up again as long as the unions have a foothold in Bisbee.

Mr. Job stated this morning that he had received the information from reliable sources while in the copper camp that the mines had plenty of money and reserve funds, and that they would fight the formation of a miners' union in Bisbee to the bitter end.

Mr. Job came by way of Globe and says in contrast to Bisbee that town is thriving and flourishing and is the strongest union camp in the territory of Arizona. The strength of the unions in Globe can be more fully realized when, as Mr. Job said, the miners in that place held a meeting to protest against the trial of Moyer and Haywood, and every saloon in the city was induced to close during the course of the meeting. This is a thing that probably could not be done in any other town in Arizona.

Town Run by Women

If Norway ever should have a mayor, the chances are ten to one a woman would hold the office. This Oxford county village of 1,500 inhabitants has more than a score of women managing progressive lines of business. The town physician is a woman. A woman is justice of the peace. A woman manages a dry goods store. Another is a photographer, a fifth is a bank cashier, a sixth is an undertaker, and still a seventh is an insurance agent. Until her recent resignation the Rev. Caroline E. Angell was for sixteen years pastor of the Universalist church at Norway. Mrs. E. W. Sanborn is responsible for the appearance of the Norway Advertiser, the local weekly. This by no means completes the list of the successful business women of Norway.—Lewiston Journal.
